Objective

A motivated and detail-oriented for **2+ years** of experience in **Python Full Stack Developer**. Strong foundation in front-end and back-end development, software engineering, and data analysis. Skilled in Python and modern web technologies, with expertise in problem-solving, analytical thinking, and teamwork. Seeking an opportunity to leverage full-stack development skills to deliver innovative and scalable software solutions that contribute to organizational success.

Technical Skills

• **Programming Languages**	**:** Python, JavaScript, React.js
• **Web Development**	**:** HTML, CSS, Flask (Backend), basic JavaScript (Frontend)
• **Databases**	**:** MySQL, SQLite, PostgreSQL
• **Data Analysis Tools**	**:** Pandas, NumPy
• **Version Control**	**:** Git, GitHub
• **Software Tools**	**:** Visual Studio Code, Excel, Adobe Photoshop

---

Education

- **B.Com(CA)**
  Parvathy's Arts and Science College - 2022 (Graduated with 75%)

Experience

- Technosoft, Bangalore , May 2023 to Tillnow

Project 1: E-commerce Backend Platform Development - May 2023 to Aug 2024

Description:
Developed and maintained the backend infrastructure of a scalable e-commerce platform using **Python and Flask**, supporting thousands of users and hundreds of products.

Key Contributions:

- Designed and implemented **RESTful APIs** for user authentication, product catalog management, and shopping cart functionality.
- Integrated **third-party payment gateways** to enable secure online transactions.
- Developed a robust **MySQL/SQLite** database schema to handle user data, orders, and product inventory efficiently.

- Implemented **JWT and OAuth** for secure user authentication and authorization.
- Conducted **unit testing** and API testing using **Postman** to ensure reliability and functionality.
- Ensured compliance with **GDPR** and other data privacy standards.

Tools/Technologies: Python, Flask, MySQL, SQLite, Postman, JWT, OAuth, REST APIs

---

Project 2:

Performance Optimization and Data Analytics for E-commerce Platform – Aug 2024 to Tillnow

Description:
Led performance enhancements and data analysis initiatives for an e-commerce platform to improve user experience and business insights.

Key Contributions:

- Collaborated with frontend team to implement **dynamic features** like real-time product filtering and sorting using **AJAX**, **HTML**, **CSS**, and **JavaScript**.
- Improved site responsiveness and speed by **optimizing SQL queries**, minimizing API response times, and implementing **caching mechanisms**.
- Automated **sales reporting** using **Pandas** and **NumPy** to analyze customer behavior, product performance, and shopping trends.
- Developed dashboards and visualizations for key performance metrics to support decision-making.
- Enhanced website interactivity and reduced load times, contributing to increased customer satisfaction and retention.

Languages

- **Tamil:** Proficient (Read/Write/Speak)
- **English:** Proficient (Read/Write/Speak)
