PYTHON FULL STACK DEVELOPER

HENDRY EPRIM J

Phone: 6379433085

Email: hendryeprim06@gmail.com

PROFILE SUMMARY

Python & ReactJS Developer with 1+ year of experience in designing, developing, and deploying scalable web applications. Strong expertise in backend development using Python (Django, Flask, FastAPI) and frontend development using ReactJS, HTML5, CSS3, and Bootstrap to build responsive, dynamic, and user-friendly applications.Proficient in developing RESTful APIs, integrating third-party services (OAuth, Payment Gateways), and managing databases such as MySQL and SQLite. Experienced in state management, component-based architecture, and API integration in ReactJS.Hands-on experience with Pandas and NumPy for data handling and analysis. Skilled in Git/GitHub, debugging, performance optimization, and working in Agile environments to deliver high-quality, business-driven solutions.

EDUCATION

BCA – Sacred Heart college of Arts & Science, Dindigul (2024) 69 %

TECHNICAL SKILLS

Programming Languages : Python
Frontend Technologies : ReactJS, HTML5, CSS3, Bootstrap
Backend Frameworks : Django, Flask, FastAPI
Database Management : MySQL, PostgreSQL, SQLite3, MongoDB
API & Integration : RESTful APIs, Payment Gateway Integration
ORM Tools : Django ORM, SQLAlchemy
Version Control : Git, GitHub
Libraries : Pandas, NumPy, Matplotlib, PyTorch

EXPERIENCE

Current Organization : Desi CrewSolutions ,Chennai.

Duration of Work : May 2024 to Till date.

Designation : Python FullStack Developer

PROJECTS

Project 1: E-Commerce Web Application **Client: SwiftMart**
Duration: Aug 2024 to Apr 2025
Technologies: Python, Django, REST API, MySQL, Bootstrap

Description:
Developed a scalable e-commerce platform enabling users to browse products, manage shopping carts, and perform secure online transactions.

Roles & Responsibilities:

- Developed backend modules using Django and Django ORM.
- Designed RESTful APIs for product catalog, cart, and order management.
- Integrated secure Payment Gateway solutions.
- Implemented authentication and role-based access control.
- Optimized database queries and improved system performance.
- Participated in Agile development cycles and code reviews.

Project 2: Task Management Dashboard Client: InnoTrack

Duration: may2025 to Tillnow

Technologies: ReactJS, JavaScript, HTML5, CSS3, Bootstrap, FastAPI, PostgreSQL

Description:
Developed a responsive task management dashboard to streamline project tracking and team collaboration.

Roles & Responsibilities:

- Built reusable components using ReactJS (Hooks & Functional Components).
- Managed state and integrated REST APIs using Axios.
- Designed responsive UI with Bootstrap.
- Integrated FastAPI backend services.
- Implemented filtering, task status updates, and real-time data refresh.
- Improved performance through optimized component rendering.

DECLARATION

I here byaffirm that the details furnished above are true to the best of my knowledge.
